

## Help Us Bring Internet to Your Community!

In partnership with the City of Tacoma, Lightcurve is offering a Digital Equity Partnership Program – complimentary Internet service to qualifying agencies in our Tacoma and surrounding service area.

Apply Today:

### About the Program

At Lightcurve, we're committed to bringing high-speed internet access to everyone. We've partnered with the City of Tacoma for the Digital Equity Partnership, which grants free internet to qualifying agencies in Tacoma and nearby areas.

We're seeking out organizations that provide access or services to low-income or underserved members of the community to help connect these groups with broadband access. Recipients will receive 12 months of complimentary internet service.

Apply today and join us in bridging the digital divide and empowering your community!

### Eligible Organizations Must be one of the Following:

- Location is a public or commercial site that provides access and/or services to low-income or underserved members of the community.
- Site is a low-income multifamily property with service to multiple residents or to a common area accessible to all residents.
- Public transportation hubs such as bus, light rail and train depots.
- Public parks or community centers that fall within underserved communities as qualified by the Pierce County Equity Index.
- Education and service facilities that aid low-income residents.
- Homeless care facility or transitional housing facility that provides single/family assistance to parents with school aged children.

*Applications are open annually from April 1 - May 31*
